

FREE TURNPIKE DELUSION.

To the Editor of the Interior Journal.
I trust that the good people of Lincoln county, especially the democracy, will not be led astray by the demagogism of the free turnpike delusion. It is certainly a self evident fact that nothing in this world is absolutely free except the air we breathe. I can very clearly and readily see that one of the beneficent results would be the creation of a place for some fellow, who is out of a job, by making him a superintendent at a good salary to look after some other fellow, also to be paid by taxing an already overburdened people with a bankrupt treasury.

I maintain that it will take at a very reasonable, if not a very low estimate, \$150,000 to buy all the pikes in the county and in order to do that there will have to be issued bonds bearing 6 per cent interest, which would amount to \$9,000 per year. Add to this the expense of keeping the various roads in repair and you will have the very modest sum of \$15,000 to pay and still have the great blessing (?) of having the debt upon us to run for a quarter of a century at least, and all for the simple glory of having free pikes for foreigners to travel at the expense of the tillers of the soil. They are the fellows that will have the bill to pay.

And last but not least, the principle is wrong, for whoever gets the benefit ought to and should have to pay for whatever he receives from any and all sources.

I was not aware that it was absolutely necessary to endorse Cleveland and Carlisle or McCreary in toto, and also to advocate free turnpikes in order to be considered one of the true and tried.

Respectfully,
A TAX-PAYER FROM COMPELSION, A DEMOCRAT FROM CHOICE.

An exchange says that "the prodigal son may return but the prodigal daughter must stay away." Truthfully said. But then there is a very great inconsistency along this line. The libertine who wrecks the life of a pure girl is recognized as a social equal and society's door is thrown wide open to him, while the poor deceived girl is made an outcast and trampled as filth in the street. Ah! Bob Ingersoll, you can not blot out hell with rhetoric. Certain crimes have made hell a necessity and future punishment a certainty.

Mrs. Scribbler (impressively)—Whatever you do, never, never marry a newspaper man.

School Chum—Why not?
"I married one, and I know. Every night my husband brings home a bundle of newspapers from all over the country, and they 'most drive me crazy."

"The newspapers?"
"Indeed they do. They are just crammed with the most astonishing bargains in stores a thousand miles away."

LANCASTER RECORD.—Mr. Lindsey Guler, of McCreary, is dead, of pneumonia, aged 60. He was one of Garrard county's most prominent farmers and was respected by all who knew him. A wife and several grown children survive him. The grand jury only returned 12 indictments, two were for murder, one for horse stealing and the balance for misdemeanors. S. H. Bruce has bought several car-loads of corn on track, at \$2.

An exchange tells of a society that was of few days and full of trouble. Forty ladies up in Illinois organized themselves into a society for the suppression of gossip. The penalty of gossiping by a member was expulsion from the society. The organization lasted less than a month, all the members having been expelled except one, and she was deaf and dumb.

A process has been invented to distill brandy out of wet elmwood sawdust, and Brice Davis, on the Howard Courant, wants to know what sort of a chance the Kansas prohibition law has when a man can go out with a rip saw and get drunk on a fence rail.—Moline (Ill.) Republican.

"I was intoxicated yesterday, but it will never occur again while I'm in your employ."
"Certainly not. I accept your resignation this minute."

To the Democrats of Lincoln County.
I am a candidate to represent Lincoln county in the next Legislature of Kentucky, subject to the action of the Democratic party. I stand squarely upon the National Democratic platform. Endorse Cleveland and Carlisle. Am for James B. McCreary for U. S. Senator and in favor of Free Turnpikes. Respectfully,
M. F. NORTH.

D. W. Fuller, of Canajoharie, N. Y., says that he always keeps Dr. King's New Discovery in the house and his family would not be without it, if procurable. O. A. Dykeman, Druggist, Catskill, N. Y., says that Dr. King's New Discovery is undoubtedly the best Cough remedy that he has used in his family for eight years, and it has saved him from a long and tedious illness. He failed to do all that is claimed for it. Why not try a remedy so long tried and tested. Trial bottle free at A. R. Penny's Drug Store. Regular size 50c. and \$1.00.

—When other stallion owners decide not to stand their horses, then is the time to stand yours. Owners of brood mares can't afford to feed them year after year without getting some revenue. While other causes co-operated to reduce production, the decrease Mr. Norwood says was principally due to the strike.

W. P. WALTON.

The Louisville Critic, like the INTERIOR JOURNAL, has a very high regard for Col. W. O. Bradley personally, while having no love for him politically. Some people can not understand this and the Critic man has been called to task for it. Its response so fully covers our feelings with regard to the colonel, that we partially appropriate it. Like the Critic we hope our paper has passed that period in its career when the mere fact that a man is a member of the opposite party should put him beyond the pale of decent treatment. The colonel has all the qualities that go to make up a lovable man. He has talent, he has good nature, he has brightness, he has courage, he knows his friends and makes sacrifices for them; he has many qualities of head and heart that commend him to never ending considerations. He is the foremost republican in the South, one of his party's best defenders, a loyal, courageous, honorable antagonist. As a politician, who fights his battles in the open and asks no quarter, as a private citizen who loves his State and her people and as an individual, he knows what good-fellowship means, with all the wit and wisdom and fine feeling that the term implies and Col. Bradley is entitled to the fair treatment and due consideration we shall always accord him.

The F. F. V's are somewhat aghast that their governor of the beloved Old Dominion should have entertained a couple of negroes at luncheon at the executive mansion. A Legislative committee from Massachusetts was invited by Gov. O'Ferrall to partake of his hospitality, not knowing that it contained a negro member and an additional local negro. He was astounded when he saw the layout, but it was too late to remonstrate and he made the best of what he regards a very dishonest transaction, and raised no objection. They were the first negroes who ever crossed their legs under a Virginia governor's mahogany and they never would have had the honor, if the governor had not been imposed upon. The Virginia people love the negro and would do most anything for him, but submit to social equality. They are not built that way.

The president is beginning to know how to reward his friends. Hon. W. M. Springer, of Illinois, who was faithful in his support of the administration while in Congress, has been given a U. S. judgeship in the Indian Territory, his constituency having retired him. Buck Kilgore, of Texas, the man who kicked down the door of the hall of the House of Representatives, when Czar Reed ordered it locked, gets the other judgeship in the same territory. Ex-Congressman Montgomery, of Kentucky, who thought he had a cinch on one of these places, got left, but hope springs eternal in his breast that other lightning may strike him, now that he is a so-called statesman out of a job.

There are wars and rumors of wars, but the end is not yet. In a three days battle between government troops and revolutionists at Lima, Peru, more than 1,000 men were killed and an armistice was only declared to permit each side to bury its dead. Minister James A. McKenzie, who sent the report to the State Department says that the United States Legation was exposed to the fire and Mrs. McKenzie narrowly escaped being shot. Diplomats and the Papal Nuncio forced the formation of a Provisional Government, and the revolution is at an end.

Another complication has arisen with a foreign power, this time with France. Ex-U. S. Consul Waller, colored, has been sentenced by French court marshal in Madagascar to 20 years imprisonment for corresponding with the Hovas, a hostile people to the government. The State department is investigating the matter and if the grounds are as slight as reported will enter an energetic protest against such arbitrary action. The French have always been our friends and it is to be hoped that nothing will disturb the relations so pleasantly begun by La Fayette.

Gov. Budd, of California, was the only democrat elected to a governorship, in the political cyclone, which swept the country last fall, and he is proving that he is of the right stamp, and that he is a man of men and a that. He has appointed a lady to be his private secretary, the first woman to be so appointed, and in doing so he has opened up another avenue for the new woman to make a living.

R. L. & W. J. Browns, who have made the Somerset Reporter a bright and new sheet for several months, have retired from the up hill business of running a paper in Somerset and left for more remunerative fields. Mr. W. C. Owens, an old newspaper man, will take charge of the paper and here's wishing him bright skies, pleasant sailing and dead oodles of money.

The postmaster-general is flooded with applications for new offices to be named "Tribby." Ohio is the first to get one and the girl with the prettiest foot in the place was selected for postmaster.

The Blue-Grass Blade man calls on his friends to help him or he will perish. He says he has made over all his property to his wife and children and the only way he has to keep his paper afloat is upon its own merits, a rather doubtful proposition for subsistence, we will remark parenthetically. He says he has lost in the last three years on it \$1,000 in cold cash, besides being put in jail several times and otherwise persecuted. To an outsider there would appear to be no crying need for such a sacrifice, but Editor Moore thinks he is the man with a mission and is not built the way of men who give up for such small obstacles as he has encountered.

In an article fully stating the company's side in the controversy about the switching of live stock to the Bourbon stock yards, when such stock comes off the Southern, Vice-President Stuart R. Knott shows he is a hand and a half with a pen, as well as in the management of railroads. He presents in a convincing way the many inconsistencies in the opinion of the railroad commissioners and strenuously contends that the L. & N. is not bound to switch for other roads. There is not only a great deal of demagoguery, but very much humbuggery in railroad commissions in general and Kentucky's complement especially.

The living statuary craze has gotten a decided black eye in New York. It has been going from bad to worse till decency could not be further outraged, and a manager and his "models" have had the doors of the jail opened to receive them. The women claim to have had on gauze tight, but they were not observable to the naked eye and to all intents and purposes they appeared like mother Eve in the Garden of Eden with never a fig leaf in sight. It is high time that the law was invoked and its penalties meted out to such violators of decency.

Judge Beckner, who served 30 days in Congress to fill a vacancy, writes to the Winchester Democrat: "I have consumed no whisky, played no cards, wasted no time, and, in fact, have done nothing that I would be ashamed to tell my wife and children when I come home." Was there ever such an exhibition of virtue? The judge is too good for this wicked world. Heaven is his home and he ought to be translated at once, before the evil days come.

What a hollow mockery is life and how empty a bubble is fame! We were especially reminded of this and the general vanities of life on seeing the Courier Journal attempt to compliment us and then get our name wrong. The next time we have occasion to speak of the editor of that great daily we shall call him Charley Watterson or something else just as bad.

Along with the statement that a process has been invented by which a fair article of whisky can be made out of saw dust, comes another saying that artificial cotton possessing all the qualities of the natural product can be made out of wood pulp. At this rate we will soon be able to go into the woods and get all we need to drink and wear with little or no effort.

The Louisville Post, which is a power in politics, has declared against Mr. Blackburn's return to the Senate on account of his free silver coinage views. Now let it put its influence for Gov. McCreary and help us to elect a Senator, who is more thoroughly equipped for real service of the country than any man in the State.

The habit of carrying concealed weapons is so contagious in the vicinity of Lexington that the fish have gotten to carrying them. A big salmon was caught there the other day which is said to have had a full sized pistol hid away in its stomach. The story is decidedly fishy, but it is telegraphed from there as absolutely true.

To-morrow's Courier-Journal will be edited entirely by ladies, who will also get the entire gross receipts of it. Mr. Haldeman having generously given the office over to them for a day. The money is to go to a worthy local charity. It is predicted that the issue will be the best ever sent out from 4th and Green.

There are 13 convicts in the Kentucky penitentiary who draw from \$4 to \$20 per month pension. We'll wager that not a single one of the beneficiaries are entitled to the bounty of the government. At any rate a conviction of a felony ought to exclude them from further benefits.

Richard Vaux is dead at Philadelphia. Besides serving a term in Congress, Mr. Vaux has a greater claim to fame. He once danced a set with Queen Victoria, a distinction no other American could assert.

An Indiana man killed himself because he failed of election to the Legislature. It would be more according to the eternal fitness of things, if all those who were elected would commit felony de se.

The Louisville Post says that the more the people think about the suggestion of Judge R. P. Jacobs, of Danville, for governor, the better they like it, and commenting on an article in the last issue of this paper with reference to it, says: "This is the man the democratic party needs; this is the man the State needs. To 'enter politics' has come to mean to organize your forces, with a paymaster

and a commissary attached, and so try to capture a nomination. No; Mr. Jacobs could not be induced to enter. But, on the other hand, as a good citizen and a loyal democrat, Mr. Jacobs could not refuse to respond to a call from his party to lead it in a great contest with the enemy. The thing for men to do, who think of Mr. Jacobs as the editor of the INTERIOR JOURNAL does, is to insist on the party naming its strongest man, and then without asking his consent, but taking it for granted, electing him Governor. Keep up the discussion of this subject and make plain to Mr. Jacobs that he is 'called' to be Governor of Kentucky.

—Please explain, Col. Walton. The Danville Advocate informs us that no one has been authorized to make any announcement of the marriage of Mr. Martin Hardin and Miss Julia Stevenson, and adds that the publication caused considerable embarrassment to the lady and gentleman in question. This paper derived its information from the Stanford JOURNAL, whose editor, Colonel Walton, is considered the very highest authority on topics matrimonial.

The above is from the Harrodsburg Democrat. We found the item floating with the flotsam and jetsam in the news paperial sea, but have no idea now at what point it was picked up. Down in Baker county, Fla., a hydrophobia scare caused the people to institute a crusade against the dogs and at last accounts 2,000 or more had been killed. Oh, for such a scare here, if it would result in the deaths of as many canines! Stanford could spare that many and not miss the worthless curs.

"A TAX-PAYER from Compulsion, a Democrat from Choice," who is an eminently conservative man and never makes statements that he cannot back with the proof, gives some excellent reasons in this issue why the people should not be carried off with the popular cry of free turnpikes. They will prove anything but free to those who will have to pay the enormous taxes their purchase and repair will occasion, but the average free turnpike advocate cares nothing for that. He doesn't pay taxes to speak of. We will be glad to hear from others pro and con on the question, which is now being generally agitated, and will publish articles of reasonable length for the advocates of either side of the proposition.

WILL O. OWSLEY, of the internal revenue service at Richmond, was painfully burned a few mornings ago. He was sitting before the fire at his boarding house putting on his shoes, when his chair turned throwing him into the red hot grate. Before he could recover himself he was in a blaze and crying for help, his landlady rushed to the scene and with great presence of mind jerked down the portiere and threw it around him, smothering the flames. He was badly burned about the shoulders, back and arms.

A dispatch yesterday afternoon from Richmond stated that Mr. Owsley had taken pneumonia and was not likely to live.

It seems to be natural for councilmen to bark and bite and tear each other's eyes. Down in Louisville last week there was a free fight in the meeting of the august body there and at the called meeting of the board here a few nights ago, there was a monkey and parrot time. The meeting had been called to consider whether the collector could separate the tax of a man, who had farming lands in side the town limits and collect only upon the property, which the court had not decided was exempt. There was a good deal of jowling and a lot of pointless talk, which exasperated the presiding officer, Mayor S. G. Hocker, and he rapped frequently and vainly for order. Finally Councilman J. K. VanArsdale, who had had much to say, jumped up and remarked that he did not intend to pay any tax on his residence property, because he got no benefit of the lights and water. The mayor called him down, but he wouldn't come and finally slapped a \$2 fine to him. Even that had no effect and \$2 more was added, the mayor remarking that he intended to have order, if he had to fine members till morning. Seeing that he would "go broke" if he persisted, the fiery councilman sat down, and on a subsequent half hearted apology, the fines were remitted and peace spread her wings over the scene. No conclusion was reached, however, and the meeting adjourned till the regular one in April.

So far there has been very little wind in the mouth noted for its blustering weather. But the record isn't made up There is a full week to hear from.

CANDIDATES for the Legislature are not announcing themselves with the celerity that was expected. This is well. A scramble for any office always leaves better feelings in its wake and injures the party in which it is made.

DEAD.—As we go to press Mr. Joe S. Rice informs us that Supt. W. P. Pike, of this division of the L. & N., died at 3:10 Monday evening. He was an excellent officer and his place will be hard to fill. His wife died several years ago, but he leaves three children.

In order to have Col. W. S. Miller, of Knoxville, owner of the hotel, present, the trial of Henry Reddick for arson and murder, was continued from Friday till yesterday, when the jury was obtained and a number of witnesses examined. It is not thought a case will be made out against him.

THE Middlesboro News says Thompson & Logan, of Lancaster, bought the Opera House there Saturday for \$5,000 and will run it in great shape. To a man this far and up a tree at that so that Editor Dains can not hit him with a rock, the price seems very high for such property in a "busted boom town."

THE weather has been behaving very beautifully for several days, Sunday and yesterday being especially delightful. There was a thunder shower Sunday night, but it was quickly over and the sun never shone brighter nor warmer than when this item was written. It looks like we are going to have some nice weather now.

TURNPIKES.—Mr. John Bright figures that there are 26 roads aggregating 147½ miles of turnpike in Lincoln county, which excluding seven roads that made no report, last year cost \$12,217.04 to keep in repair. These pikes cost from \$500 to \$4,500 a mile to build them. It is estimated that to buy the roads, keep them in repair, pay the interest on the bonds and provide a sinking fund will run the county levy beyond the limit of 50 cents as provided by the constitution.

SOCIAL.—The Ladies' Aid Society of the Presbyterian church will give a social in the basement of that building next Friday, 29, beginning at 5 P. M. Sandwiches, tea and coffee, ice cream and cake will be served and the admission will be 25 cents. As the money is to go to Mr. Hayden, the missionary that the church is assisting in China, it is hoped that the social will be liberally patronized. A cordial welcome and a nice time are promised all who attend.

HELD.—The examining trial of John Hamner, charged with the murder of Mac Moore, near Junction City, resulted in his being held over to circuit court under \$1,000 bond. He made no defense, but moved a dismissal at the conclusion of the evidence for the prosecution. Moore's father, J. F. Moore, claims that Hamner murdered and robbed the boy. He swore that he gave Mac \$50 that lay and none of the money was to be found on the body when it was discovered.

THE Caledonians always draw like a sticking plaster, whether they have anything special to present or not. It is free, you know, and there the tale is told. At their entertainment Saturday night at the court house Miss Annie Hays sang a solo very sweetly. James M. Sauley and Sam Lee declaimed, Miss Maggie Bright recited and A. A. McKinney, Jr., sang a couple of solos very creditably. The debate on Which is the greater incentive to good works, hope of Heaven or fear of hell? was discussed by James Beazley, Jack Beazley and S. W. Menefee, but they either did so well or so poorly the judges, John H. Bright, M. F. Elkin and Joe F. Waters, could not decide which side had won and they reported a hung jury. The Caledonian Prevaricator was edited and read by George B. Wearlen and was quite an interesting paper, which presented some pretty pointed personalities.

CHURCH AFFAIRS.

—Rev. L. M. Lasley left for Glasgow yesterday to join the Rev. Ramey in a meeting down there.

—Rev. P. T. Hale held a great revival at Bowling Green of two weeks. Over 50 professed conversion and 40 joined the Baptist church.

—Young ladies of Trinity church at Mt. Xenia, O., in their efforts to raise money for the church are blacking boots, cleaning up offices, carrying in coal and the like.

—Rev. Wm. R. Potter, a student at the Presbyterian Seminary, Louisville, has been unanimously called as pastor at Kirksville, Madison county. He will graduate this session.

—E. Lethrow, an evangelist at Nashville, O., arose from his bed at midnight and while asleep climbed through the attic of his house to the roof and preached a sermon. A policeman who heard it said it was the effort of his life.

—The Columbia Spectator says that Rev. Smith's meeting at the court-house there has resulted in 100 conversions and each service increases the number. So far the Baptists have 28; Methodist, 17; Christian, 12; Presbyterian, 7, while several have not yet decided what church they will join.

—Rev. A. W. Crawford, of Paint Lick, is assisting Rev. Henry Miller in a meeting at the Presbyterian church, Middlesboro.

—The meeting at Walnut Flat, which has been in progress for several weeks, was likely to close last night, Rev. W. E. Arnold being too indisposed to continue it. There has been a great awakening of the dry bones in the church and some 40 confessions and sanctifications are reported.

—An eminent scientist says that on Good Friday, April 12, the Heavenly bodies which gravitate round the sun, will be exactly in the same position they occupied in the firmament the day Christ died on the cross. It will be the first time such a thing has occurred since that great day, just 1,862 years ago. That was the 33d year of the Christian era, which dates from the birth of Jesus Christ.

—Mrs. DeHaven, of La Grange, widow of Judge DeHaven, has bought a large lot opposite the present church in La Grange and will build upon it a beautiful Memorial church. The house is to contain three rooms, the largest for revival meetings, one the regular audience room, and the other for the Sunday-school. If we remember correctly, Mrs. DeHaven had her husband's will broken because she did not like the way he disposed of his property and we suppose she wants to atone for it in this way.
